bi4dynamics

ROADMAP 2018

- **DYNAMICS 365**

  Deliver BI support for cloud and on-premise solution for Dynamics 365.

- **EXTERNAL DATA SOURCES**

  Integrate other sources than Microsoft Dynamics inside BI4Dynamics.

- **WIZARD**

  Continuosly improving the Wizard to fully support development and customization of BI projects.

- **BOOST PERFORMANCE**

  The goal is to process BI4Dynamics solution from 3 TB NAV database in 8 hours.

DEVELOPMENT WIZARD

Q1

NEW WIZARD BASED VERTICAL SOLUTIONS
LS Retail and other vertical solutions (based on requests). BI vertical solutions will be totally Wizard based. Very easy to customize or further develop by Wizard without SQL knowledge.

MULTILINGUAL SUPPORT
Multilingual support for all Wizard generated object: dimensions, measures, folders, cubes.

Q2

WIZARD 3.0
Fully editable cubes: GL, FA, Service, Bank Accounts.

Q3

WIZARD 3.1
Fully editable cubes: Receivables, Payables, Inventory.

Q4

WIZARD 3.2
Fully editable cubes: Sales and Purchase.

POWER BI

Q1

NEW SET OF POWER BI REPORTS (DW & CUBES)
Redesign & new Power BI features & new BI4Dynamics features;
DW and cube based for all standard areas (SALE, PUR, AP, AR, INV, FIN).

PERFORMANCE

Q1

SELECT PROCESS FLOW
Select stage or DW or SSAS as a separate data process.

Q2

BOOST PERFORMANCE
Improve data transformation to process 3 TB NAV database in 8 hours.

bi4dynamics

DYNAMICS 365

Q3	**SUPPORT FOR DYNAMICS 365 BETA** Preview version of BI4Dynamics for Microsoft Dynamics 365 for on premise and cloud solution.
Q4	**SUPPORT FOR DYNAMICS 365** Support for Microsoft Dynamics 365 for on premise and cloud solution.

EXTERNAL DATA SOURCES

Q1	**EDIT SSIS PROCESS FLOW** Integrate new SSIS packages into BI4Dynamics.
Q3	**ADD EXTERNAL DATA SOURCES** Use new connectors to add data from other sources (SQL, Excel, txt file…) to BI4Dynamics.
Q4	**INTEGRATE EXTERNAL DATA SOURCES INTO WIZARD** Use Wizard to add data from external sources to existing or new DW based cubes.
