

## BI4DYNAMICS NAV NOVEMBER RELEASE

We are ready to take-off a new version BI4Dynamics NAV 5.1. which is bringing exiting new features such as automated Wizard and Role Management. There are also major content improvement with Multi-Measure Tool (comparison and aggregation) and new Purchase Cube features (Purchase Delivery and Days since Last Purchase).

## NEW CONTENT

### Multi-Measure Tool (All Cubes)

By adding new dimension "Multi-Measure Tool" to columns, current measure (for example Net Sales) is automatically expanded by 28 new measures. New measures are based on combination of base measure and date. It works with every transactional measure in all cubes!

## Purchase Cube

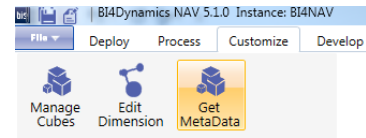

- Purchase Delivery
- Days since last Purchase

	Cost Amount		Average Days Late		Late Amount %		Qty Late		Late Qty %	
	2013	2014	2013	2014	2013	2014	2013	2014	2013	2014
Kradolf Zimmerdecke AG	176.084	108.850	3,9	3,6	15%	18%	473	551	34%	36%
Belle et Belle	141.325	98.270	4,9	3,9	37%	18%	347	349	31%	32%

## APPLICATION FEATURES

### Direct NAV metadata access

NAV Metadata are filled automatically without opening Microsoft Dynamics NAV (v2009+).

### Virtual Cubes

Virtual Cubes are easily created from physical cubes (standard and wizard created cube). Each deploy updates physical and virtual cubes.

### Roles and Permissions Management

Roles and Permission are created within standard Microsoft OLAP cubes (SSAS). BI4Dynamics Roles and Permissions are stored automatically before deployment and revoked by pressing "Apply Roles and Permissions" button.

### Automatic license update

License is automatically updated on every process. No need to go to the application and click update license.

### Offline License

Offline license process has been redesigned. It requires server ID that is generated by BI4Dynamics application.

New version with all documentation is available on Support portal and on web page.
